

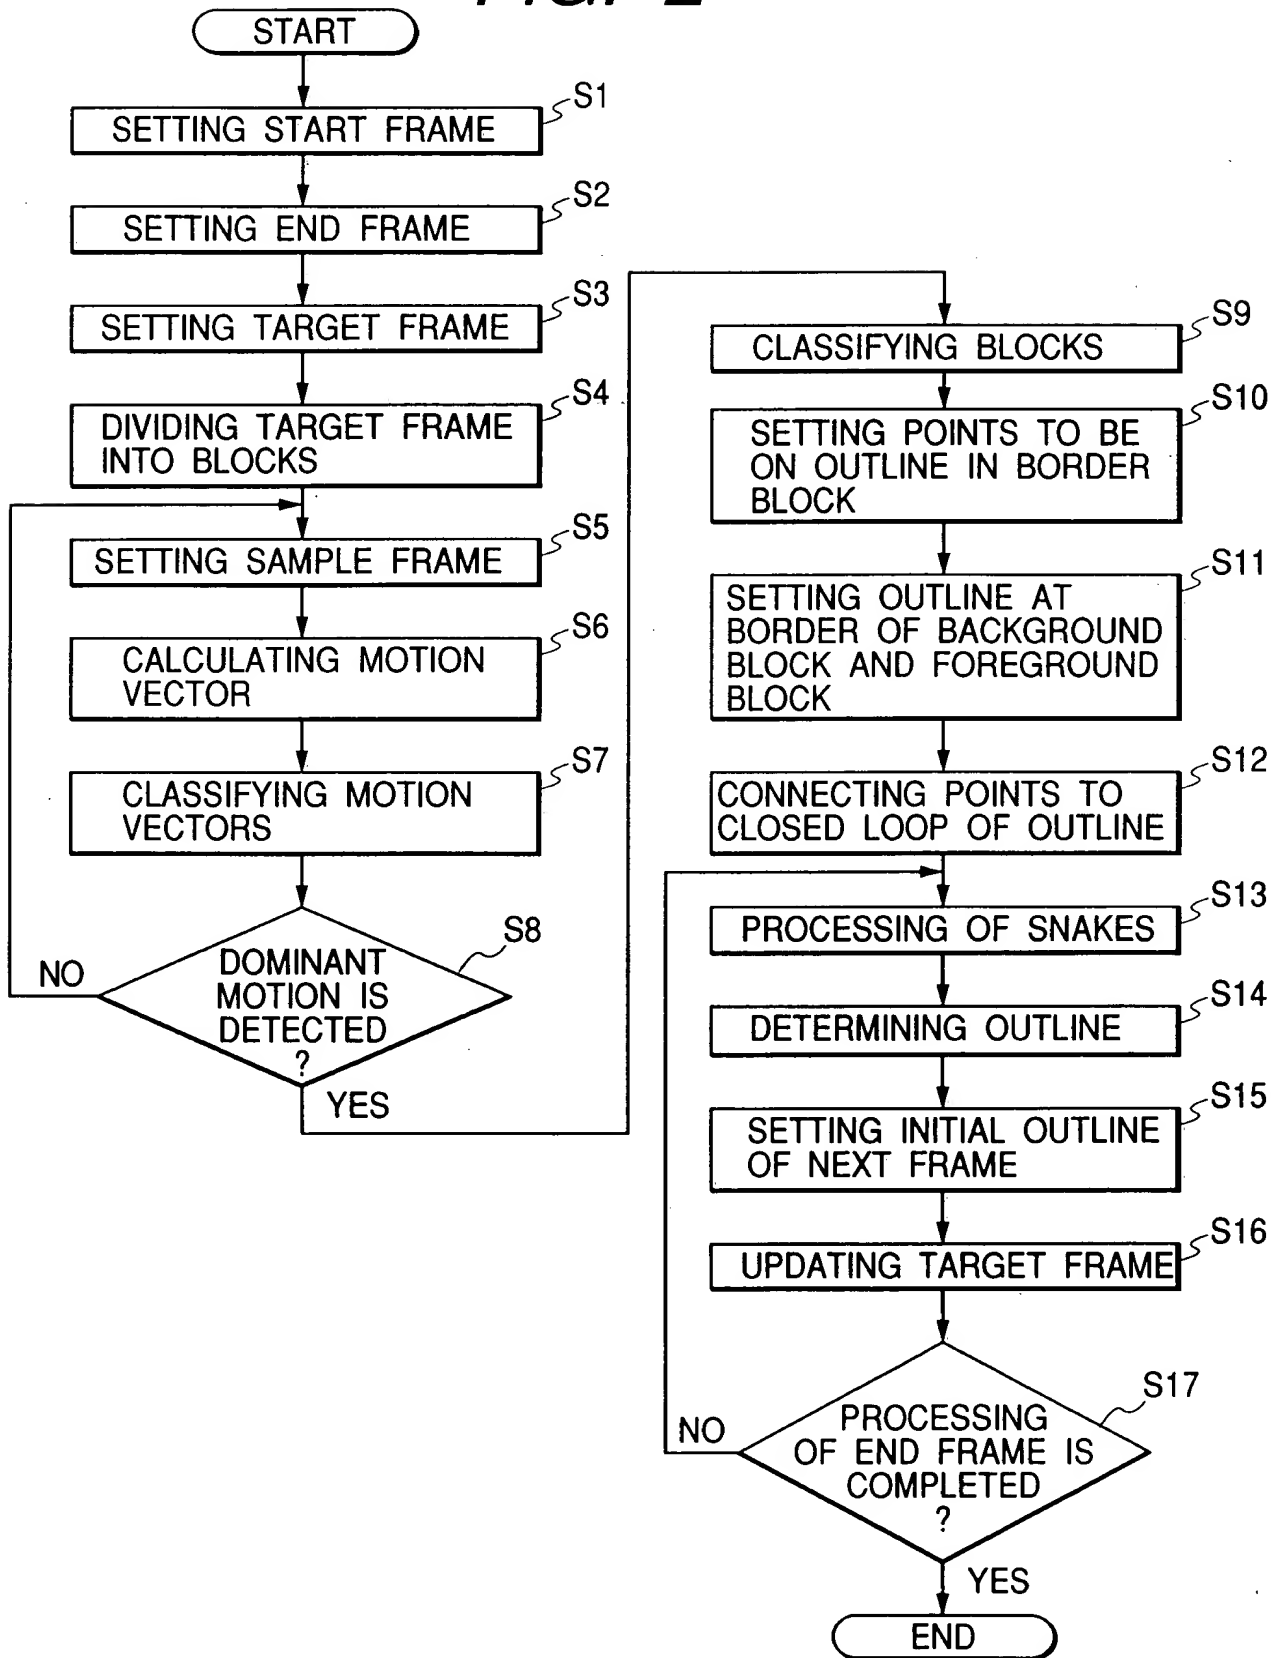

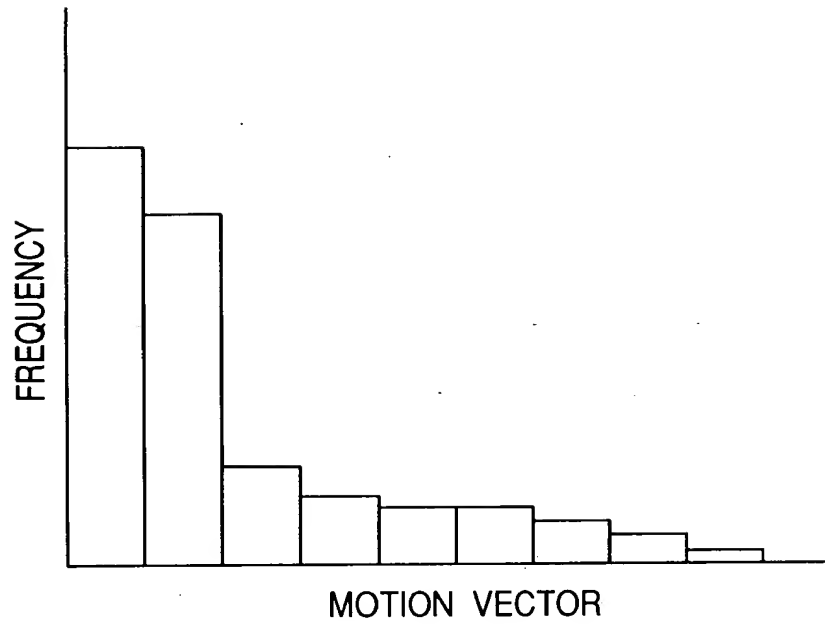

FIG. 2

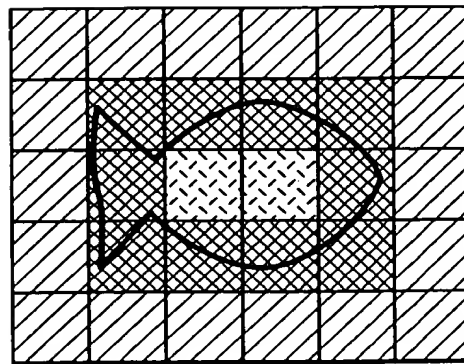

A diagram of a tape with a cross-hatched region between START and END markers. The tape is a horizontal bar with a cross-hatched pattern. Above the tape, there are five square boxes, each containing a fish-like shape. To the right of the tape, there are two oval markers labeled "START" and "END". The "START" marker is at the left end of the cross-hatched region, and the "END" marker is at the right end of the cross-hatched region. The cross-hatched region is the area between the "START" and "END" markers.
